

Feature Overview

Integrations

- ✓ Embed leading fintech solutions
- ✓ Differentiate your institution

You want to provide a top tier banking experience for your users, and we believe the best way to achieve that goal is by plugging in the best of the best—including both the tools they know and love and the greatest new technology on the market.

integrations

With the power to connect other tools, both from Jack Henry and from third parties, differentiating your institution has never been easier. Our open banking technology makes it easy to integrate all your user's favorite tools. We're always working on new connections and partnerships, and our speed of development means you'll always have the latest and greatest technology available.

Featured Integrations		Company
Akoya - A leading data aggregator that provides increased security, visibility, and control over financial data.		Akoya
Alloy - A configurable fraud screening tool that works with Jack Henry OpenAnywhere to mitigate fraud in the digital account opening process.		Alloy
Finity - A leading data aggregator that provides increased security, visibility, and control over financial data.		Finity (Mastercard)
MyCardRules - Offer advanced card controls, from setting spending limits to requesting notifications—or blocking—transactions at certain retailer types.		Jack Henry
OpenAnywhere - Enable accountholders to open an account in five minutes or less, with a configurable process and integrations that boost security and innovation.		Jack Henry
Plaid Exchange - A leading data aggregator that provides increased security, visibility, and control over financial data.		Plaid
Send Invoice Get Paid - Autobooks has partnered with Jack Henry to make integrated invoicing and digital payment acceptance standard features of Banno.		Autobooks
Yodlee - A leading data aggregator that provides increased security, visibility, and control over financial data.		Yodlee

our growing list of integrations

We're constantly working to support new integrations, in the form of both native (API) and single sign-on (SSO) technology.

Below is a complete list of the integrations we currently support. Please reach out to the Digital Experience Sales team at digitalexperience@jackhenry.com for more information on any of these integrations, as some may require a custom work request (CWR).
